KALAT—Baluchistan.

The Khanate of Kalat, which formerly comprised the whole country known as Baluchistan, is now a Native State included within the modern Baluchistan Agency. Notwithstanding the separation of certain tracts, such as the territories of the Jam of Las Bela, and the Marri and Bugti country, whose connection with Kalat is now of the most shadowy kind, the State still occupies about two-thirds of the whole province.

The Town of Kalat is the chief Town of the territories of the Khan of Kalat in Baluchistan, and is situated on the Northern spur of limestone hill called Shah Mardan, Lat 28′ 53° N., Long. 66′ 23° E. It is about 6,783 feet above sea level. Kalat and its Feudatories are under the Political control of the Agent to the Governor-General, Baluchistan. Population 470,336. Languages spoken—Brahui and Persian.

The Kalat State is divided in to a number of Niabats situated in Sarawan, Jhallawan, and Mekran areas. Six of the more important ones situated in Sarawan (with Kachi) are directly under the Wazir-i Azam's control. The annual income of these Niabats is about Rs. 4,90,000. In addition, His Highness the Khan receives Rs. 2,79,000 from annual subsidies.

The Chief's residence is at Kalat, where his Palace fort, the "Miri," is famous for its picturesque strength.

A NATURAL HISTORY OF THE MAMMALIA OF INDIA,

BURMA AND CEYLON.

BY R. A. STERNDALE, F.R.S., F.Z.S.

With 170 Illustrations by the Author and others.

The geographical limits of the present work have been extended to all territories likely to be reached by the sportsman from India. It is copiously illustrated, not only by the author himself, but by careful selections made by him from the works of well-known artists.

***Knowledge.*—"It is the very model of what a popular natural history should be."**

***Saturday Review.*—"Full of accurate observations, brightly told."**

***Athenæum.*—"The results of a close and sympathetic observation."**

***The Times.*—"The book will, no doubt, be specially useful to the sportsman, and indeed has been extended so as to include all territories likely to be reached by the sportsman from India."**

***The Daily News.*—"Has contrived to hit a happy mean between the stiff scientific treatise and the bosh of what may be called anecdotal zoology."**
